The amalgamation is being done to meet the country's credit needs, to help achieve the country's \$5 trillion economy goal and to have the capacity for raising resources for future growth. The proposed **Next-Generation Bank** will be better placed to offer **State-of-the-Art Products and Services** in the rapidly Digitalising Banking context. Further, the bigger geographical and market footprint is going to help us serve all our customers across the country in a **Cohesive and Consistent** manner.

The amalgamation process which was initiated on 30<sup>th</sup> August 2019, has been progressing smoothly and the exercise is expected to be completed by 31<sup>st</sup> March 2020 in a seamless manner. The best of products, policies, technology, systems and procedures will be implemented in the amalgamated entity. While we are jointly embarking on a transformational journey, we assure you that there will not be any disruption in the Banking activities and as a customer you will continue to get the consistent level of banking experience.

While we are in the process of building a new Bank which has the **Capacity, Capability and Reach** to meet the changing Banking requirements and aspirations, we would like to re-assure you that the 1,00,000+ workforce of the Bank is committed to provide a customer centric approach and provide the **Best of Banking products and customer experience**.
