

SCHEME FOR FINANCING SETTING UP OF BIOGAS UNITS

PURPOSE:

- For construction of biogas plant with sanitary latrines in rural areas.
- Repair of defective biogas plants.

ELIGIBILITY: Intending borrower should have adequate number of cattle commensurate with size of plant proposed to be set up. Support for repair may be provided for biogas plants which are at least 5 years old and are presently not in use.

EXTENT OF LOAN: Need based depending upon models and capacities of biogas plant. However, in case of repair restricted to 50% of estimated expenditure.

REPAYMENT OF LOAN: As per capacity of biogas plant as under:

Biogas plant capacity	Repayment period
Up to 5 cubic metres	7 years
Above 5 cubic metres	5 years
