1. Policy Overview

In the present scenario of competitive banking, excellence in customer service is the most important tool for sustained business growth. Customer complaints are part of the business life of any corporate entity as every business has to deal with situations in which things go wrong from a customer's point of view. This is more so for Banks being service organizations. As a service organization, imparting good customer service and enhancing level of customer satisfaction is the prime concern of any bank. Providing prompt and efficient service is essential not only to attract new customers, but also to retain existing ones. Customer dissatisfaction would spoil bank's name and image which will result in loss in business.

The Bank's policy on grievance redressal follows the under noted principles.

- a) Customers be always treated fairly.
- b) Complaints raised by customers are dealt with courtesy and on time.
- c) Grievances of pensioners and senior citizens are dealt on priority.
- d) Customers are fully informed of avenues to escalate their complaints/ grievances within the organization and their rights to alternative remedy, if they are not fully satisfied with the response of the bank to their complaints.
- e) Bank will treat all complaints efficiently and fairly as they can damage the bank's reputation and business if handled otherwise.
- f) The bank employees would work in good faith and without prejudice to the interests of the customer.
