New Delhi, 30 December 2024: Punjab National Bank (PNB), nation's leading public sector bank, has successfully achieved PCI-DSS v4.0.1 (Payment Card Industry Data Security Standard), the global gold standard for card data protection within the banking environment. This certification ensures that all major processes and systems involving card data meet stringent security requirements, enhancing customer confidence and fortifying the payment security ecosystem.

As an issuer for VISA, Mastercard, and RuPay cards, PNB has always in forefront to implement industry leading practice with international standards, to manage its payment system infrastructure which displays Bank's effort to build highly secured system to strengthen customer trust and ensure privacy and security of customer's data.

Bank MD & CEO, Shri Atul Kumar Goel proudly announced the ground-breaking achievement and extended his heartfelt congratulations to the dedicated team involved in achieving this certification. He remarked, *"We are proud to have received this PCI DSS(V-4.0.1) certification, which is a testimony to Punjab National Bank steadfast commitment to maintain the integrity and confidentiality of our customers' payment information. Bank's compliance with this international standard safeguard our customer's data and enhances the confidence of our stakeholders. It reinforces our promise to lead with innovation, security, and adherence to international best practices."*
