

Attention!

Don't Respond to Any Free COVID-19 Testing Email

Cyber Criminals may send emails with the subject: Free COVID-19 testing for all residents of your city.

Government of India has decided to reimburse testing cost incurred. A medical staff will come to your residence to collect samples.

Then they ask you to provide personal information through an email or website link for registration.

Best Practices for Individuals

- ✓ Don't open attachments or click on a URL contained in unsolicited e-mail
- ✓ Update patches and fixes on the operating system and application software
- ✓ Follow a strong password policy and regularly change passwords.
- ✓ Scan and remove suspicious e-mail attachments
- ✓ Maintain up-to-date antivirus signatures and engines
- ✓ Exercise caution when using removable media
- ✓ Scan all software downloaded prior to executing.
- ✓ Enable a personal firewall
